This document contains a lot of links to websites and email addresses. The pdf with working links can be found on the MoL website at: <https://msclogic.illc.uva.nl/current-students/facilities>

1 Introduction

This text is based on a document written in 2004 by Henrik Nordmark and Reut Tsarfaty who were Master of Logic students at the time. The text has been updated during the past years with the help of Laura Aina, Tuğba Altin, Christopher Badura, Caitlin Boonstra, Sirin Botan, Almudena Colacito, Inés Crespo, Johannes Emerich, David Fiske, Lisa Fulford, Malvin Gatteringer, Tanja Kassenaar, Frederik Lauridsen, Niels Molenaar, Lucy van Oostveen, Peter van Ormondt, Sietske van der Pol and Pablo Sierra Marquez, Samantha de Vries, and Wouter Smit. It should give answers or referrals to questions new Master of Logic students might have when they are trying to make themselves familiar with a new university, city and country.

2 Useful sources of information

When you are trying to find an answer to a question, the first places to look are the websites listed below:

- MoL ILLC Website: <https://msclogic.illc.uva.nl>
- UvA Students: <http://student.uva.nl/en>
- UvA Student Topics: <https://student.uva.nl/en/topics>
- MoL Programme Canvas Page: <https://canvas.uva.nl>

The second thing you could try is:

- ask your question at the Digital Student Service Desk:
<https://student.uva.nl/en/information/ask-a-question>
- Try querying the internet using your favourite search engine.

3 Emergencies

Call 112 in case of an emergency

Police, Ambulance or Fire Brigade

Emergency on UvA Grounds

Also call the UvA Central Control Room

+31 (0)20 525 2222

3.1 General emergency phone number - 112

The emergency phone number in The Netherlands is **112**. The same number is used in most European countries, including all in the European Union.

You should use this phone number for police, fire brigade or (potentially) life-threatening medical care. Examples are

- witnessing a crime,
- a (starting) fire or smoke,
- a (potentially) life-threatening medical situation,
- need for an ambulance.

3.2 Emergency within the UvA buildings

The UvA has a Central Control Room for emergencies in UvA Buildings and on UvA grounds, which is accessible 24/7. The phone number is +31 (0)20 525 2222.

The control room will provide instructions for what to do and the on-site emergency response officer (BHV) will be dispatched immediately to coordinate any procedures including first aid. If necessary they will also call 112 to dispatch police, ambulance or fire brigade.

Always report situations like:

- serious injuries or a (severe) first aid incident;
- fire or smoke development, or smell of gas;
- aggression or threats;
- major leaks with risk of short circuit or power outage.

<https://www.uva.nl/en/about-the-uva/contact-and-locations/reporting-an-emergency.html>

3.3 Non-Emergency Contacts

3.3.1 Medical Care (urgent but not life-threatening)

If a situation is not life-threatening, but you do require urgent medical care, you call your general practitioner (GP). In evenings, nights, or weekends, you can reach the *General Practitioner Centre* (HAP).

The GP or HAP will see you, directly if necessary, or will forward you to a hospital's emergency room and/or call an ambulance.

Please be aware that you cannot visit a hospital or their emergency room directly without a reference from your general practitioner or an ambulance.

Huisartsenpost Amsterdam (HAP) - Centrum-oost
Amsterdam General Practitioner Centre - Centre-East
Oosterpark 9, 1092 AE Amsterdam

For non-life-threatening urgent care outside of office hours.
You must call the HAP for an appointment.

Phone: +31 (0)88 00 30 600

<https://huisartsenpostenamsterdam.nl/>

During office hours, call your own GP.
No GP? See section 4.1 for the UvA GPs.

3.3.2 Non-Urgent Police

You can contact the general police phone number or visit a nearby police station for non-urgent inquiries or to report a crime that has already passed.

Find an Amsterdam Police Station near you at:
[https://www.politie.nl/mijn-buurt/politiebu
reaus?geoquery=Amsterdam](https://www.politie.nl/mijn-buurt/politiebuureaus?geoquery=Amsterdam)

Contact the police at:
phone: 0900 – 8844 (2.8 ct/min)
from outside the Netherlands: +31 343 57 8844

<https://www.politie.nl/>

4 Health and wellbeing

For general information about and contact details of UvA's doctors, psychologists, dentists, student counsellors and confidential advisers for undesirable behaviour please consult the Student Topics:

<https://student.uva.nl/en/topics/health-well-being-and-safety>

4.1 University Doctors (GP)

You must always be registered with a general practitioner (GP) for first-line medical care. The UvA has university GPs available for all its enrolled students:

<https://student.uva.nl/en/topics/general-practitioners-practice-uva>

See the following page to find out about making appointments:

<https://www.huisartsenamsterdam.nl/international/>

The university doctors can also refer you to a specialist if needed. Do not forget to take your health insurance card with you.

4.2 University Dentists

You can find a dentist using the link below.

The Academic Centre for Dentistry Amsterdam (ACTA) offers dental care at a discount (on average 65% of the normal rate). University dental students, supervised by qualified dentists, conduct the treatment. However, they will only take you on when you are an interesting case.

<https://student.uva.nl/en/information/dentists>

4.3 University Psychologists

Should you experience any personal problems, a lack of motivation or concentration, or suffer from depression, anxiety, psychosomatic complaints or culture shock you may consult the University Psychologist. Consulting the psychologist is free of charge. All psychological consultations are strictly confidential. If necessary, the psychologist can find you a therapist who speaks your native language.

<https://student.uva.nl/en/topics/student-psychologists>

4.4 Student Counsellors (*Studentendecanen*)

In case you need to take a break from your studies due to health issues or urgent family matters it is wise to contact the student counsellors. They can help you with the official de-registration, breaking off your tuition fee and lease payment, and maybe postponing your scholarship.

It is important to contact the student counsellors during the (health) issues or as soon after to be eligible for (financial) aid.

<https://student.uva.nl/en/topics/study-guidance-and-counselling>

4.5 Social safety & Confidential advisors (*Vertrouwenspersonen*)

The UvA aims to create a safe environment for all its students and employees. You can read all about UvA's policy in this respect in the UvA Code of Conduct:

<https://www.uva.nl/en/about-the-uva/policy-and-regulations/codes-of-conduct-and-social-safety/code-of-conduct-of-the-uva.html>

Employees and students generally respect each other's boundaries. However, if this is not the case and you feel that your boundaries are not respected, the first thing to do is address the person doing so. Often, people did not intend to and informing each other about your boundaries is sufficient.

Sometimes this can be difficult to do, or the behaviour does not stop. Then it may be advisable to get informal help from others, such as a fellow student or a lecturer. You may also confidentially contact the the MoL Programme director (Nick Bezhanishvili), or the study adviser (Tanja Kassenaar) to discuss a situation.

You can also get support from one of the UvA's confidential advisers for undesirable behaviour. These are UvA employees who guarantee confidentiality and help you resolve a situation. In addition, the UvA has complaints regulations and a Complaints Committee for students and staff. The confidential advisers can guide you in submitting a complaint about an UvA employee.

None of the current UvA confidential advisers has any link to the ILIC or Master of Logic.

<https://student.uva.nl/en/information/confidential-advisers>

5 Student Status at UvA and Immigration Status in the Netherlands

Any questions you may have about your official registration as a student of the University of Amsterdam, your residence permit, your visa, traveling outside the Schengen area, your legal status in the Netherlands, getting a BSN (Citizen Service Number), or your right to work in the Netherlands, first try:

- UvA Students Topics:

<https://student.uva.nl/en/topics>, or

- ask your question at the Digital Student Service Desk:

<https://student.uva.nl/en/information/ask-a-question>

If they can't answer or do not answer in a satisfactory manner, then you can also contact the International Team of the Faculty of Science.

International Team – Education Service Centre FNWI
Science Park 904
phone: +31 (0)20 525 7100
master-science@uva.nl

You may also attempt to contact someone directly at the Immigration and Naturalisation Service known as the IND:

Immigration and Naturalisation Service (IND)
phone: 088 0430 430 (10ct/min) (weekdays 9 a.m. – 5 p.m.)
<https://ind.nl/en/>

6 Housing

Hopefully everybody has found a place to stay by now. Most of you will have found accommodation through the UvA, others might have found housing through other channels.

Please carefully read your lease contract and if you are left with questions, please contact the housing department of the Faculty of Science at:

housing-science@uva.nl.

6.1 Legal advice on housing rights

There are quite some rules protecting tenants in The Netherlands. Even if you do not have a formal contract, you have certain rights.

The ASVA (Amsterdam Student Union) offers free legal aid to students. You can easily ask them a question via the link below.

<https://asva.nl/en/services/legal-aid/>

6.2 How to find housing on your own

The first thing you should do when looking for an apartment on your own is ask friends, colleagues, PhD students, acquaintances *etc.* By far one of the best ways of finding a new place to live is by word of mouth or by social media.

The following UvA sources gives some advice on how to go about finding a place to live on your own.

<https://www.uva.nl/en/education/practical-information/housing/housing.html>.

Beware of scams! Both on the websites and on social media. If you are in doubt, ask a second year student or your student mentor.

7 Academic Matters

For academic matters, there are various persons and bodies that fulfill different roles. You can find an overview on the following UvA information page.

<https://student.uva.nl/en/information/programme-contact-points>

In general, your first point of contact for any academic matters is the programme coordinator.

Programme Coordinator - Master of Logic
(*Opleidingscoördinator Master Logic*)

Anne-Christine van der Bijl
mol-illc@uva.nl

For general questions on academic matters.

7.1 General Information: Courses, Tracks, *etc.*

Information regarding courses, course descriptions, tracks and their requirements and the graduation procedure can be found on the following websites:

<https://msclogic.illc.uva.nl/>

<http://studiegids.uva.nl/>

7.2 Programme Coordinator (Opleidingscoördinator)

If you are unsure who to contact regarding an academic matter, please use the general email address for the MoL. This is maintained by the *Programme Coordinator* (Dutch: *Opleidingscoördinator*) for Logic. The current programme coordinator for the MoL is Anne-Christine van der Bijl. See the contact details above.

The programme coordinator manages most practical tasks, such as maintaining the course catalogue, timetables, and everything needed for your programme to run smoothly.

7.3 Study adviser

The study adviser can help you with questions about your curriculum, planning, or personal circumstances that are affecting your studies. You can also contact them if you simply want advice. The current study adviser for the MoL is Tanja Kassenaar.

<https://student.uva.nl/en/information/study-adviser>.

Study Adviser - Master of Logic
(*Studieadviseur Master Logic*)

Tanja Kassenaar

`t.kassenaar@uva.nl`

*For questions about your curriculum, planning, or personal
circumstances*

7.4 Examinations Board

The Examinations Board (*examencommissie* or EB Logic) makes the final decisions regarding your graduation. It is responsible for the quality of the students that leave the programme with a diploma.

The Examinations board must approve any special regulations or exemptions about your study curriculum, such as credits from other programmes or universities, exemptions from obligatory elements, your final course list, or for your thesis project.

On top of that, one of the members of the EB Logic must be the chair of your thesis defense committee.

The Examinations Board also has to approve the examinations of all the courses within the MoL. If you have complaints on any of these subjects, or complaints about your grades, or the amount of credits you got for a course, please also contact the EB Logic.

<https://student.uva.nl/en/information/examinations-board>

Examinations Board (Master Logic)

exam-science@uva.nl

Email sent to this address is processed by the Programme Coordinator. If needed, they will forward it to the MoL Programme Director or the Examinations Board for Logic.

The Examinations Board currently consists of:

- Dr. Maria Aloni
- Dr. Benno van den Berg, *chair*
- Dr. Balder ten Cate
- Dr. Malvin Gattinger
- Dr. Aybüke Özgün
- Dr. Petter Törnberg
- Dr. Fan Yang, *external member*

7.5 Opleidingscommissie (Programme Committee)

The *Opleidingscommissie*, or *Programme Committee* also known as the OC, is in charge of evaluating the ongoing quality of the Master of Logic programme. This includes the quality of all the classes, the content of the classes, the academic mentor system, the student mentor system, the MoL Room and more generally the overall quality of the programme as a whole.

Both staff members and students are represented in this committee. In a nutshell, the committee keeps an eye on every aspect of the programme and formulates suggestions for improvement to the director of the Master of Logic.

The current members can be found on the webpage. You can contact them in case the OC should discuss any complaints or suggestions you might have. Before every OC meeting the student members will write an email to all students to call on them to come with complaints, proposals or any other suggestions they might have.

Opleidingscommissie (OC) Logic
(*Programme Committee Logic*)

<https://msclogic.illc.uva.nl/people/committees/>
oclogic-science@uva.nl

7.6 Academic mentors

Your academic mentor is intended to guide you in all academic matters at the ILLC. The mentor is there to help you and discuss with you the following issues:

- the courses you are going to take,
- projects you want to do, and,
- finding a thesis topic and thesis supervisor (note that your mentor is not necessarily your supervisor).

Your mentor may also be able to help you with career advice matters. It is strongly advised that you meet with them in person before the beginning of each semester and then maintain email contact throughout the semester. You can of course meet with your mentor more frequently if that seems beneficial. Do not hesitate to contact them in case you have questions that are of an academic nature.

Academic mentors are assigned before your arrival. It might be that your mentor doesn't match very well with your background or interests and is not fully up to date with the courses in that specific area. That should not be a huge problem. They can also refer you to another staff member of the ILLC to discuss some of the courses with you. If you are still unhappy about your mentor assignment, please feel free to send an email to mol-illc@uva.nl.

More information about the academic mentors, and a list of the current academic mentors can be found on the ILLC MoL website.

<https://msclogic.illc.uva.nl/people/mentors/>

7.7 Choosing classes and planning research projects

You should check the course list, course descriptions, and timetables on the web:

<https://msclogic.illc.uva.nl/current-students/courses/taught-courses>

<http://studiegids.uva.nl/>

<https://datanose.nl>

You should discuss your choices in relation to your background with your academic mentor and make these decisions together. Your mentor and you should make sure that you take all the required classes you need for your track and you take enough credits so that you can graduate in a timely fashion.

7.7.1 Workload

Beware not to underestimate the workload of ILLC classes. The relationship of 1 EC = 28 hours of work is accurate. This simply means that taking much more than 30 EC of courses per semester (or more than 12 EC in one of the 8-week blocks) will probably be too much work. Concretely, for a typical 6 EC course running over a period of 8 weeks, you should plan for an average of 20 hours of work per week. Classes tend to start slow, especially in the first semester, which can only mean they end in full speed. Please be aware of this when you are planning your semester.

7.7.2 Classes outside the Master of Logic

If you are interested in a subject that is not taught within the MoL, you can also talk to your academic mentor. They might be able to advise you on how to go about finding a course at another Dutch university, or to find a staff member that might be willing to do an individual project with you in the field of your interest.

If you need further assistance with the formal requirements to take such classes and receive EC's for completing them, please send an email to mol-illc@uva.nl.

7.8 Registration and deregistration for classes

For registering and deregistering for classes the UvA uses GLASS. You can deregister for courses up to two weeks after the course start.

<https://msclogic.illc.uva.nl/current-students/courses/registration/>.

7.9 Research projects

Because the MoL is a research-oriented programme, a research project for 6 EC is obligatory for all tracks. In fact, you are encouraged to do more than one project. It is advisable to complete your first project well before starting preparations for

your Master thesis and not to wait until too late.

There are different possibilities to find projects:

- The MoL offers coordinated research projects in the project period at the end of each semester, in January and June (block 3 and block 6). Descriptions of these projects are published around 1 month before they are offered at:

<https://msclogic.illc.uva.nl/current-students/courses/projects/>

- You can also propose an independent project, individual or in a group, and this project can take place either in the project period (January and June) or during the semester. For this, you should contact an ILLC staff member. Although they are not obliged to accept your proposal, most staff members will if the proposal is realistic.

You can also contact someone from outside the ILLC who works on the subject of your interest. They might be willing to do an individual project with you. For this, however, you should consult Programme Director who needs to approve all independent research projects. Please send an email to mol-illc@uva.nl to make formal arrangements.

- Registration for June and January projects is done by contacting the teacher(s) and they will register you in DataNose. Registration of independent projects is also done by the teacher.

7.10 Research Events

The ILLC organises many colloquia and lectures. These events will be announced via ILLC News, which is sent out weekly, and on the ILLC website:

<http://www.illc.uva.nl/NewsandEvents/>

Visiting such events is of great importance for your research training, because this will bring you in touch with trends in research and allow you to make new contacts. This includes conferences and workshops in Amsterdam and nearby, seminar and colloquia at the ILLC and other institutions, and reading groups that you might want to organise yourself.

8 Other support

8.1 Studying with a disability or a chronic illness

If you have a disability or chronic condition, the UvA can provide extra support. Please make sure to reach out to the study adviser for Logic to organise the extra facilities in time.

The website below will give you more detailed information on how the UvA can help you:

<https://student.uva.nl/en/categories/studying-with-a-disability>

8.2 Grades, transcripts and diploma

If there is something wrong with a grade in SIS or DataNose, or it takes too long before a grade is registered there, please contact the lecturer of the course. If the lecturer cannot help you, you can contact the Education Service Centre (ESC) via the Education Desk (Onderwijsbalie).

For official statements about your student status, and in general practical information about tuition fees, registration at the UvA, you can ask a question through the digital student desk:

<https://student.uva.nl/en/information/education-desk>

There you can order several official UvA documents, after logging in with your student account. If you don't find your answer there, you can contact the Education Service Centre (ESC) of the Faculty of Science (see the box below).

Exchange students should contact the exchange officer at studex-science@uva.nl. If you need an official international grades transcript, for instance for PhD applications, you can ask for one at the ESC faculty of Science.

Applying for your diploma, after you defended your thesis, and questions about your diploma, is also done at the desk of the ESC.

Education Desk (*Onderwijsbalie*)
Education Service Centre (ESC), Faculty of Science
Science Park 904, first floor, left desk
onderwijsbalie-fnwi@uva.nl
phone: 020 525 7100
office hours: Monday to Friday, 9 a.m. – 5 p.m.

8.3 Exchange semester abroad

You can do an exchange semester abroad, both as a Dutch student and as an international student. You should first contact the Exchange Officer of the Faculty of Science:

studex-science@uva.nl

It is also required to contact the Examinations Board beforehand to ask permission to use the courses you intend to take during your exchange period within your MoL programme. Afterwards you should hand in an official transcript to the EB Logic, to get these courses and credits registered at the UvA.

9 Protection of your interests, problems and complaints

In case you are not satisfied with the MoL programme, the facilities, the people surrounding you, then there are several ways to address these.

<https://student.uva.nl/en/categories/complaints-objections-and-appeals>

- Problems with the programme, courses or quality.: The OC (Opleidingscommissie / Programme Committee)
- Problems with examinations, your grades, or the amount of credits you received for a course: Examinations Board (Examencommissie).
- Personal problems or situations such as illness or study delays, as well as advice on your programme and planning or doubts with your choice of courses: The study adviser. The study adviser is a more informal role and usually a first point of contact. They can also refer you to the right address or professional help.
- Problems or situations on a personal level: Student Counsellors (Studentendecanen). The student counsellors fulfill a more formal role in granting specific support.

If you have general problems within the programme, that do not fit the scope of the OC or other bodies, you can contact the Programme Director or Programme Coordinator via mol-illc@uva.nl.

9.1 Disussing Confidential Problems

If you wish to discuss a confidential matter about the programme, either academic or personal of nature, you can contact the Programme Director or Programme Coordinator directly. They will treat your matter confidentially.

- Programme Director
(Nick Bezhanishvili, n.bezhanishvili@uva.nl)
- Programme Coordinator
(Anne-Christine van der Bijl, j.c.a.vanderbijl@uva.nl)

You can also contact one of the UvA's confidential advisers (vertrouwenspersonen), who are confidential, neutral contact points who can help and advise you and your interests. None of the confidential advisers in the list has any connections to the Master of Logic.

<https://student.uva.nl/en/information/confidential-advisers>

10 The ILLC

The Institute for Logic, Language, and Computation (ILLC) is the Logic institute of the UvA of which the MoL is a part. The following section details the ILLC as a research institute in general.

10.1 The ILLC Office

The first line of support on ILLC or building-related items is the ILLC Office.

The departments of the ILLC are spread over multiple locations, both in the city centre and on Science Park. The two main locations are Science Park 107 (next to the Nikhef building) and Lab42. The MoL Room is in the Science Park 107. The ILLC office uses separate email addresses for the two Science Parks offices. The SP107 address is often the right one for MoL students, maintained by Alex Zieglerová.

ILLC Office (location SP107)
sp107-illc@uva.nl

For practical office matters, such as booking rooms, or problems with the MoL Room.

10.2 ILLC Diversity Committee

The ILLC is dedicated to providing a welcoming and supportive environment to all members of its community regardless of background or identity. The ILLC Diversity Committee strives to uphold these values. For more information, please have a look at:

<https://www.illc.uva.nl/AbouttheILLC/Diversity-at-ILLC>

10.3 Receiving Mail at the ILLC

The ILLC Offices offers MoL students the possibility to have mail delivered to the ILLC. This can be useful in circumstances where you cannot receive mail at your residential address. Please contact the ILLC Office if you want to use this.

10.4 The MoL Room

The MoL room is an office space where MoL students can study, located on the second floor of the ILLC in Science Park 107.

In the MoL room, all MoL students with all their differing academic and cultural backgrounds can come together, exchange ideas, work together, socialize and bond with each other. The ILLC maintains this special area with access to desk space, computing facilities, a group work area, and other amenities for exclusive use of the Master of Logic students.

The MoL Room is a privilege unique to the Master of Logic programme. We hope that all MoL students use this opportunity and expect that the use of the room is treated with respect.

10.5 The Common Room

The Common Room is the canteen of the ILLC in SP107 for both staff and students.

When you use any cup, plate, spoon or any other dish or kitchen utensil, please put them in the dish-washer and turn the machine on if it's full. If you find the machine full and clean, please take a few minutes to take the items out and into the cupboards.

Note that coffee machines throughout the UvA do not have disposable cups as per UvA policy. So bring your own!

10.5.1 Access and Leave of SP107 outside of Office Hours

The ILLC department in Science Park 107 (SP107), including the MoL Room, is inside a building that requires a UvA (student) card to enter *and to leave*.

Moreover, SP107 is in an enclosed gated area called the *WCW terrain*. This area is open during office hours, but you cannot enter or leave after 19:00h unless you have a special access key called a *dropkey*.

It is important that you leave before 19:00h to avoid being locked in.

If you want to be in the MoL room after 19:00h or on weekends, you should arrange that a senior student lets you through the gates using a special *dropkey*. The ILLC office does not give out new dropkeys to students due to frequent loss. The office is currently working on a more systematic solution for access outside office hours.

If it happens that you forget time and find yourself inside the gated area after 19:00h, you can use the intercom at the gate and ask security to open the gate for you.

10.6 ILLC on Facebook

Anyone associated with the Institute for Logic, Language and Computation is welcome to join this group. This includes but is not limited to current students, former students, PhD students, postdocs, faculty members, *etc*:

<https://www.facebook.com/groups/5712043442/>

Specifically for prospective, active and former MoL student, there is also the facebook group *The MoL Gang*. You are also very welcome to join this group.

<https://www.facebook.com/groups/102399849805512/>

11 MoL Student Community – Study Association Ex Falso

You can also actively participate in the student community of the MoL. Student and study associations are common in The Netherlands, which are fully run by students. *Ex Falso* is the study association for logic students (including PhD students). As a Logic student you are welcome to attend their activities, which are both academic and social in nature.

You can reach out to Ex Falso if you want to participate in or help organising such events, which range from a Logic magazine (*The Illogician*) to social events, to managing the MoL Room and its study sessions outside office hours. Of course, new initiatives are also more than welcome.

Ex Falso
Study Association for Logic Students
<https://resources.illc.uva.nl/ExFalso/>

11.1 Current Committees in Ex Falso

The Ex Falso board is the main body of the association, and organises social activities as well as being in charge of contact between the ILLC Office, programme director, and its internal committees.

- The MoL Room Committee
- The Illogician

12 General information on life in Amsterdam

In general, if you have questions about living in Amsterdam, sports, bikes, shops, bars *etc.*, please search the Internet, ask your fellow students, your student mentor, or check the Facebook groups.

13 If you still don't know whom to contact

If you still cannot find an answer to your question you can always contact:

Anne-Christine van der Bijl
Master of Logic
phone: 020-525 6449
mol-illc@uva.nl
